Our advantage:

Business outlets covering Chinese and IT sales and service brand for many years,
We owned as many as 100 for outstanding marketing, sales, foreign trade, engineering technology, enterprise management team.
We are modern enterprise management model. And we have rich experience on International cooperation and successful cases.

We are desired for you cooperation with flexible ways of cooperation (including product project cooperation, joint venture, joint venture, service, channel agent etc.).

Successful case :

1. Cabletron (China) Technical service center

Methods: We used to be responsible for the formation of Cabletron technical service center in China. We spent six months to build a call center and a central spare parts warehouse in Beijing, and formed a team of engineers, and to achieve the normal operation of the service center.

Effect: Saved the budget of more than 50%, saved time up to 6 months going into China market.

2. AVLON Sales in China

Methods: We signed a sales and service Chinese area agency agreement with America AV company, And then we start the market planning, marketing, sales, installation and after sale services promotion action.

Effect: Within one year to promote the success of 20 sets, and quickly occupied the Chinese 100% market, expand the global turnover of 3%, significantly improve the visibility and influence the rate of market agents.

3. USS Chinese service

Methods: 2003 USS company won the bid of world bank loan projects for Chinese Railway Ministry in the "Jing Jiu railway line (Beijing - Kowloon ,Hongkong) railway signal control system" s case, in which the core control system consists of 10 American HP minicomputer, storage, we successfully undertook to provide, computer equipment installation, on-site maintenance work, the scale of the project is \$1,200,000.

Effect: Save USS labor cost is more than 75%, reduce the USS project management and customer communication pressure, shorten the construction period of 3 months.
